Actual Size

Bracket to Bracket Maximum

The Bracket to Bracket maximum is the maximum distance in inches between brackets before an additional bracket must be added to avoid unwanted bowing or sagging. The maximum depends on the weight of the treatment fabric and the rod diameter. Some rods have the same maximum regardless of fabric weight.

Light Treatments include unlined, sheer, and lightweight fabric
Heavy Treatments include lined, blackout, or upholstery fabric

WANDS

Fiberglass Wands with Clip

Available in White

ROD CUSTOMIZATION

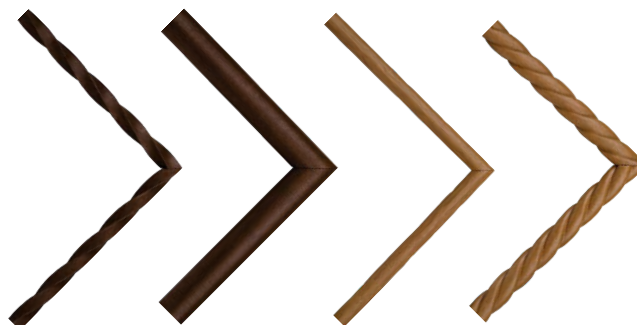

At Helser Brothers, we take pride in our work. Not only do we produce quality products, but we go above and beyond to make yours unique through a variety of customization options.

MITERED RODS

Unlike elbows, miter cuts can be used with any of our rods, at no extra cost!

Due to the twist in the rod, Hollow Rope rods and Twisted Solid rods will not match up at point of miter.

Welded-on rings require an upcharge.

BOWED & ARCHED RODS

Most of our rods can be bowed to match your exact template.

We require a quote and a template before ordering any bowed rods. See your Price Guide for information.

Welded-on rings require an upcharge.

CUSTOM DESIGNS

Helser Brothers' rods, such as this beautiful custom "Branch Rod," offer our customers the opportunity to make their drapery dreams come true.

ELBOWS & SWING ARMS

ELBOWS

Actual Size

Bracket to Bracket Maximum

The Bracket to Bracket maximum is the maximum distance in inches between brackets before an additional bracket must be added to avoid unwanted bowing or sagging. The maximum depends on the weight of the treatment fabric and the rod diameter. Some rods have the same maximum regardless of fabric weight.

Light Treatments include unlined, sheer, and lightweight fabric

Heavy Treatments include lined, blackout, or upholstery fabric

CATALINA FRENCH POLES

Helser Brothers offers mitered French Pole kits for outdoor use in two styles: Standard and One-Sided. Each kit contains base plate(s), the labor for fabricating the return, and mounting hardware. Rods are priced and sold separately.

CATALINA RINGS

Worried about wind wear & tear? Thanks to this ring hack by one of our creative clients, Dian Garbarini, you don't need to be!

On the right, she used heavy duty Velcro tabs (outdoor snaps are another alternative) to hang her outdoor drapery on our versatile Double Rings, providing a sturdy, resistant treatment option that is easy to remove and clean.

ROMAN BLIND ASSEMBLIES

Our Roman Blind assemblies are a quick and easy way to bring that classic and clean feel to any design. They come in two sizes: Standard and Extra Large, with motorized versions available.

Features:

- Clean, self-contained, extruded aluminium Headrail with white powder coat and integrated Velcro.
- Simple wall or ceiling mount installation and patented pull up drums for smooth operation.
- **Maximum Shade Weight:** Heavy Duty 1:4 Gear ratio will hold up to 18# with RBS Standard and 24# with RBS-XL; 10# with Plug & Play and Lithium battery motors.
- **Maximum Shade Size:** 228" (19') x 144" (12') as long as fabric is under weight recommendation.
- **Minimum RBS Assembly Width:** 10" for non-motorized assemblies, 18" for motorized assemblies.
- **Component Color:** Chain comes in white, beige, silver, and bronze (Silver and Bronze will require an upcharge). The tension device comes in white, beige, clear, and brown.

Hand Drawn Assemblies include: Headrail, Drive Rod, Control Unit and End Cap, Cord Drums, Shade Leveler, Swivel Wall or Swivel Ceiling Brackets, Bead Chain Loop, and Universal Tension Device

Motorized Assemblies include: Headrail, Drive Rod, Control Unit and End Cap, Cord Drums, Shade Leveler, Swivel Wall or Swivel Ceiling Brackets, Motor, Power Supply and Cords or Battery and Charger, and Remote.

HBNOW & HBEXPRESS

SPEEDY QUICKSHIP HARDWARE

RA•PID

/ 'ra-pəd /

Adjective

.....

Def: marked by a fast rate of motion, activity, succession, or occurrence.

Difficult clients, last minute changes, rushed orders — Sometimes life throws you a curveball and leaves you having to choose between quality and speed. Thankfully, our Quickship collections were made for this exact situation and will provide quality hardware without wasting your time.
